SPECIAL AND LARGE SIZE ROTARY SHAFT
OIL SEALS. CUSTOM MADE ARTICLES TO DWG.
IN ELASTOMER AND RUBBER-TO-METAL.
SELF LUBRICATING BUSHINGS AND WASHERS.

The joint production capacity of **F.lli Paris S.r.l.**, founded in 1979, and **ATS Special Oil Seals S.r.l.** founded in 1983 allows us to propose to the market a wide range of both Standard and Large Size Rotary Shaft Oils Seals, for General and Heavy Duty applications [water, oil and grease]. In addition to this key production, FP and ATS are very strong with the manufacturing of technical industrial components to drawing in rubber-to-metal and various elastomers.

We have a full production capacity. From the design and realization of the molds, to the compression moulding of the seals based on specific customer's requirements. Starting year 2011 F.lli Paris S.r.l. extended its articles range to the division **SLIB ITALY**, specialized in the production of Sliding Bearings and Washers for valves and other applications for the hydraulic, power supply and primary metal industry.

SPECIAL AND LARGE SIZE ROTARY SHAFT
OIL SEALS. CUSTOM MADE ARTICLES TO DWG.
IN ELASTOMER AND RUBBER-TO-METAL.
SELF LUBRICATING BUSHINGS AND WASHERS.

SLIB ITALY is a production division of •FP• dedicated to the manufacturing of self-lubricating metal bushings and washers for use in the energy, valve and engine industry, with a wide range of sizes and a portfolio of various metals very nourished and constantly in stock, which guarantee extremely rapid productions and quick deliveries thanks to the FasTrack service. We are also the only company in Europe that can simulate the use of bushings for the valve sector, thanks to a test bench engineered and built specifically to provide additional quality assurance to our products.

SEAFUID is the latest division born in the •FP• group and is focused on the production of hydraulic seals guaranteeing a complete range of products and materials, engineered solutions and services for hydraulic equipment in the heavy industry. All the most important sealing components for cylinders, pistons and presses from standard to special and customized ones can be found in the new range of our machined seals, which help to improve the reliability, availability and efficiency of the hydraulic systems, fluid management and power transmission equipment.

HEADQUARTER
Rotary Shaft Oil Seals and custom made articles to drawing in elastomer and rubber-to-metal

LARGE OIL SEALS
Special and large size rotary shaft oil seals for applications in the Heavy duty industry

BUSHINGS AND WASHERS
Self-lubricating bushings and washers for valves and other applications in the hydraulic, energy and metal industry

HYDRAULIC SEALS
Engineered sealing solutions and custom kits for heavy duty hydraulic and pneumatic applications

Total turnover 2025
€ 29,45 Million

Total employees 2025
129

Certified
ISO 9001:2015

STANDARD AND ENDLESS O-RINGS | ROTARY SHAFT OIL SEALS | CUSTOM ARTICLES TO DWG. IN ELASTOMER AND RUBBER-TO-METAL | LIQUID SILICONE | 3D PRINTING | PTFE AND HIGH PERFORMANCE TECHNOLOGIES | SELF LUBRICATING BUSHINGS AND WASHERS | FLUID POWER SEALING SOLUTIONS

Large size and Endless O-Rings in various compounds, produced with an innovative step-molding method.

oringone.com

O-Rings in a variety of compounds with numerous certificates of quality. These O-Rings range from the automotive industry to the hydraulic and food industries.

duciguarnizioni.com

Molds design and manufacturing. Injection molding of custom made articles in technopolymers and liquid silicone. 3D-printed items.

duepistampi.com

PTFE and High Performance Technopolymers. Stock shapes and customized engineered components.

fluorten.com

Rotary Shaft Oil Seals and custom made articles to drawing in elastomer and rubber-to-metal.

fpparis.com

Special and large size rotary shaft oil seals for applications in the heavy duty industry.

atsoilseals.com

Self-lubricating bushings and washers for valves and other applications in the hydraulic, energy and metal industries.

slibitaly.com

Engineered sealing solutions and custom seal kits for heavy duty hydraulic and pneumatic applications.

SEALCORE is a **Global Network**, which Companies provide a 360° full service controlling any single step of the production.

The whole Network is active in various sectors through 7 main production divisions strictly dedicated to the manufacturing of **Industrial High Technical grade components**, out of a total of 12 Companies including subsidiaries and warehouses.

SEALCORE Network is a guarantee of a **quality made in Italy**. From the design to the realization and production of the molds, to the final products. Standard or Custom-Made.

SEALCORE Network is a winning philosophy from the manufacturing to the final control of the finished parts in various materials and compounds, and with a large variety of quality certificates.
