SPECIAL AND LARGE SIZE ROTARY SHAFT
OIL SEALS. CUSTOM MADE ARTICLES TO DWG.
IN ELASTOMER AND RUBBER-TO-METAL.
SELF LUBRICATING BUSHINGS AND WASHERS.
FLUID POWER SEALING SOLUTIONS

The joint production capacity of **F.lli Paris S.r.l.**, founded in 1979, and **ATS Special Oil Seals S.r.l.** founded in 1983 allows us to propose to the market a wide range of both Standard and Large size Rotary shaft Oils Seals, for common and Heavy Duty applications [water, oil and grease]. In addition to this key production, FP and ATS are very strong with the manufacturing of technical industrial components to drawing in rubber-to-metal and various elastomers.

We have a full production capacity. From the design and realization of the molds, to the compression moulding of the seals based on specific customer's requirements. Starting year 2011 F.lli Paris S.r.l. extended its articles range to the division **SLIB ITALY**, specialized in the production of Sliding Bearings and Washers for valves and other applications for the hydraulic, power supply and primary metal industry. The new division **SEALFLUID** opened in 2017 is dedicated to engineered sealing solutions and custom seal kits for heavy duty hydraulic and pneumatic applications.
